Wolf Committee:

The mission of the Wisconsin Conservation Congress Wolf Advisory Committee is to help implement and review current policies and practices that are a part of Wisconsin's Wolf Management Plan. To effectively accomplish this mission, the committee will take into consideration a wide array of biological and sociological issues critical to Wisconsin's Wolf Management Strategy, including but not limited to: management boundaries, depredations, zones, harvest goals, nuisance research, trapping, population modeling, rehabilitation, habitat and other issues of statewide conservation or environmental concern.
