Solon Springs, WI 54873

Mr. Meyer:

Thank you for the opportunity to provide professional services for the Olson Meadow Dam Removal Project.

Project Overview

We understand that Olson Meadow Dam has structural issues with the existing corrugated metal pipe. The structure has reached its end of life and requires removal. WESLIE Engineering Group has developed the following work plan to comply with the WDNR regulations regarding dam removal, prepare construction documents, and prepare a competitive bid package for contractor bidding.

Work Plan

Task 1	Wetland Delineation Complete a wetland delineation of dam removal area. Create wetland delineation report and obtain concurrence from WDNR.	\$4,500
Task 2	Preliminary Design Create preliminary design drawings in coordination with the Douglas County Forestry Department. This preliminary design drawings will be used in the application for approval to remove the dam.	\$4,600
Task 3	Floodplain Modeling Update existing Hec-RAS modeling to reflect dam replacement or to reflect dam removal and construction of a new culvert to maintain the trail crossing. Either scenario will require floodplain modeling.	\$3,700
Task 4	WDNR Wetland Permitting Submit for a wetland impact permit. The permit is expected to be a General Permit submitted as a joint WDNR and Army Corps permit. Permit will be submitted jointly with the dam removal permit.	\$3,000

Clint Meyer
February 23, 2024
Page 2

Task 5	WDNR Dam Removal or Reconstruction Permit Develop report and analysis necessary for permitting with WDNR. Submit to WDNR a permit request to remove or to reconstruct Olson Meadow Dam.	\$3,900
Task 6	WDNR Ch30 Permit for Culvert Installation Develop a Ch30 General Permit application for installation of a new culvert on a navigable stream.	\$2,500
Task 7	Final Design and Plan Production Develop final construction plans and details necessary for contractors to complete bids.	\$4,600
Task 8	Bid Package Complete competitive bid package. Package includes contract language (front end specifications) and technical specifications with plan sheets and details. Attend prebid meeting and bid opening and perform bid evaluation.	\$4,500
Task 9	Onsite Project Representations Perform project representation for construction. (This assumes 40hrs/wk for a PE inspector for 2 weeks of critical inspection and 25hrs/wk for 2 weeks of part time critical inspection.)	\$15,000
Task 10	As-Built Topo and Drawings Complete an As-Built topographic survey and PE stamped As-Built drawings. Submit drawings to WDNR.	\$5,400

Deliverables

For this project, Long Island Engineering LLC and Weyandt Engineering Services LLC (WESLIE Engineering Group) will provide the following:

- Preliminary design plans for WDNR permitting
- WDNR permit for dam removal or reconstruction
- WDNR permit for new culvert installation on navigable stream (Ch30)
- Final design plans and plan production
- Wetland Delineation and Permitting
- Competitive Bid Package
- As-built survey and stamped as-built plans

Schedule

We are available to provide these services promptly to submit permits in 2024 for a 2025 construction season.

Fee Estimate

We propose to complete **Tasks 1 through 10** in the scope of work for a time and materials estimated fee of **\$51,700**.

Clint Meyer
February 23, 2024
Page 3

If during the course of work, any issues that arise that are beyond the scope of this proposal, Long Island Engineering LLC will discuss the potential effects of this on the project and provide an estimated fee prior to moving forward with any additional work. The following rates apply to staff that may work on this project. These rates are good for the 2024 calendar year.

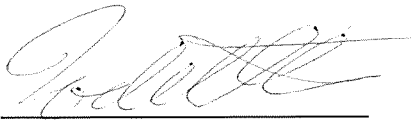

- Senior Engineer \$155/hr
- Admin Support \$60/hr

This letter and contract represents the entire understanding between Douglas County Forestry Department and Long Island Engineering LLC for the above described project (**Olson Meadow Dam Removal**) and may only be modified in writing signed by both parties. If this satisfactorily sets forth your understanding of our agreement, please sign in the space provided below and return to us.

I look forward to discussing this project with you further. If you have any questions, please contact me at **715-209-4747** or via email at **longislandengineeringllc@outlook.com**.

Sincerely,

Long Island Engineering, LLC

Todd Gibbon, PE CFM

PROPOSAL

This proposal is offered and based on the terms and conditions of the Minnesota AGC Subcontract or AIA Contract A201 with no additional terminology or riders.

Base Bid Scope of Work:

Site Work

- Install silt fence on both sides of dam
- Excavate existing pipes and stockpile materials onsite
- Remove overflow structure and dispose of
- Install new culvert pipe
- Backfill, place and compact materials from onsite to proposed elevation
- Import 60 yards gravel for reconstruction of trail

Bid Price: \$47,800.00

Clarifications and Exclusions

- Unforeseen conditions such as contaminated soils or rock excavation are excluded.
- Also not included would be permits, dewatering or any winter conditions.
- ****Final payment is due on the date we finish.

Thank you for the opportunity to participate in this project.

Please call / email with any questions.

Respectfully submitted,
