Project Description Summary
 Vilas County is proposing to develop 0.5 miles of new Summer ATV/UTV trail from McKinley Blvd. to Morley Rd. in USH 45 ROW, which also holds a current funded snowmobile trail. This trail will be constructed in the USH 45 ROW with a land use agreement with the neighboring property owner in case of need for fill from trail base would encroach. This trail is needed to better accommodate ATV/UTV traffic from using the current road route of McKinley Blvd. This would remove most traffic from a residential area along the Eagle river chain of lakes. Trail area will need some tree removal, stumping, and grubbing. Trail will be leveled with some areas needing fill. A compacted sand base with 6" gravel top course to be installed. Trail will need to be constructed to 14' in width per DOT standards and variance letter is included with application. There will be a wooden fence installed between the trail and existing concrete sidewalk. This is another DOT requirement for the trail to be constructed. RTP funding is being applied for. Total cost for development is \$123,832.30. RTP: \$99,000.00 ATV: \$24,832.30

I certify that all maintenance land use agreements are on file.

Estimated Cost						
Maintenance \$500.00	Acquisition	Insurance	Development \$123,832.30	Bridge Rehab.	Trail Rehab.	Total Estimated Cost \$124,332.30

Todd,

We concur that crossing at the signalized intersection is the safest possible location for an ATV crossing of US 45 here. If you are proposing to place the entire trail on the Nolan property, then nothing further is needed from us. If you are proposing to place any of the trail on US 45 right of way, we will need to see an engineered planset that shows the trail location, typical section, profile, and cross-sectional elements. Please bear in mind that the trail needs to either be separated from the sidewalk by a minimum of 10', or have a vertical barrier placed in between. If any portion of the Nolan property is to be used, we would require a formal land use agreement, or preferably a permanent easement, in order to be able to permit the trail portion on the US 45 right of way.

Please let us know if you have any additional questions at this time.

Thanks,

Rich

Good morning,

I just got off the phone with the property owner Dean Nolan who has the property on the east side of USH 45 between Mc Kinley Blvd. and Morley Rd. If we construct the trail on that side of USH 45 and need to encroach onto his property, he is good with that. So, How does that sound to all of you. This would mean that the only crossing of USH 45 would be at a controlled intersection. Much safer. Please let me know so that I can get this in for grant funding this next cycle.

Roger, you will need to contact him for an easement or LUA.

Thank you,
Todd
