Section 2: Project Information Required for all Projects

Project Title 2024-2025 Trail Maintenance Funding				Current Funded Miles SN 475.9 ATV 556.6	New Miles (if applicable)
County Shawano	Township N	Range ○ E ○ W	Section ¼ ¼	¼	GPS Coordinates: Lat. _____ Long. _____

Project Description Summary

Maintenance activities include trail grooming, trail mowing & brushing, trail sign repairs and erection along routes, bridge & culvert repairs, plowing of parking lots and access roads, grading/bulldozing of trail surfaces, transportation of grooming equipment as needed, as well as administrative fees with Shawano County. All clubs utilize A Class power units. Easements are on file for use of private lands. (Note): New Miles funding does not require any development dollars. Trails are currently existing and being maintained by the respective club clubs.

I certify that all maintenance land use agreements are on file.

Estimated Cost

Maintenance \$198,430.00	Acquisition	Insurance	Development	Bridge Rehab.	Trail Rehab.	Total Estimated Cost \$198,430.00
Leave Blank – DNR Use Only

Bridge Project Detailed Description

- 160' x 12 Bridge
- 70' Arched Center Span on 48" Swamp Pans on Riser Legs (61' clear span)
 - 45' Approaches on Both Sides on 24" Swamp Pans
 - #25,000 Load Rating
 - Riprap on creek shore per WI DNR Specs
 - 42" Trail Railing
 - Double 2x10 treated deck.
 - Installation (14-15 Working Days)
 - Shipping
 - Stamped Engineering Drawings

Subject: RE: Bridge Crossings

Terry,

I've updated the estimate for a 12' bridge with a 25,000 lbs. load capacity and provided answers to your questions below.

1. Installation is included in the estimate, done by our expert crew. With the larger bridge installation will be closer to 14 days.
2. Weight Load can be adjusted to your requirements, Original bridge estimated was a 14,000 lbs. load, This updated estimate is for a 25,000 lbs. load.
3. Per the prints provided, the bridge is made of steel I-beams on steel footings. The decking is 2x10 Brown-Stained Treated Southern Yellow Pine. A Double deck is needed for the 25k load rating, so there is a wear deck on top of the base deck. The Railing is wood as well. The photos below show similar bridges.

160' x 12 Bridge – Budgetary Estimate \$230,000 - \$250,000

- 70' Arched Center Span on 48" Swamp Pans on Riser Legs (61' clear span)
- 45' Approaches on Both Sides on 24" Swamp Pans
- #25,000 Load Rating
- Riprap on creek shore per WI DNR Specs
- 42" Trail Railing
- Double 2x10 treated deck.
- Installation (14-15 Working Days)
- Shipping
- Stamped Engineering Drawings

However, we will have to go through Engineering before we know an accurate price.
This should be fairly close though.

12' x 160' Single Rail Pedestrian Trail Bridge

Treated Pine

7 Sections (Requires Center Piers)

Single Handrail (Guiderail Height)

Estimated 100 PSF Load Beams

Flat Beams

Unstained

Galvanized Hardware

Does Not Include Assembly

Base Cost = \$156,870.00

Stamped Engineered Drawings = \$1799.00

Shipping = \$6390.00

Total = \$165059.00

Thank You,
