Snowmobile Supplemental Payment Guidance

History

The concept of a supplemental payment for snowmobile maintenance dates back to 1985. At that time, there was a desire to provide additional funds for the grooming of trails with above-average snow amounts and a heavy tourist presence. Beginning in 1985 and for the next 6 years, funds were made available for supplemental grooming payments, typically from balances in the snowmobile program when projects are completed under budget.

In 1990, payments for supplemental grooming were legislatively expanded to supplemental maintenance payments. Along with the expansion of eligible costs came a dedicated funding source: The gas tax formula was multiplied by 40% and the resulting amount was targeted for supplemental maintenance payments. In 1999, the amount for supplemental payments was further increased by transfer of a portion of the non-resident trail pass fee (established in 1998). In 2013, the gas tax multiplier was increased to 55% of the gas tax transfer amount.

Thresholds/Payment Caps

Since the inception of the supplemental maintenance program, maximum payment amounts and supplemental snowmobile payment eligibility have changed a few times. Currently, a county must do the following to be eligible for supplemental snowmobile payments:

- Spend its entire \$300 per-mile allotment on maintenance
- Spend a minimum of \$200 per-mile on grooming

In addition:

- The maximum allowable non-grooming expense is \$250 per mile
- The maximum payment possible to any county is 5 times the per-mile rate.

Maintenance Reporting

Snowmobile trail maintenance is defined under ch. NR 50, Wis. Adm. Code, as the activities associated with establishing and keeping a trail safe and enjoyable to use. These activities include:

- posting signs,
- brushing,
- grooming of snow,
- minor repair of bridges,
- purchase of liability insurance by counties for snowmobile trails and acquisitions of easements,
- leases or permits or other land use agreements for periods of less than 3 years.

Central to this payment process is the concept of placing a value on the donations of labor and machine use by snowmobile club volunteers for work undertaken. The Snowmobile Recreation Council annually reviews an equipment and labor schedule that includes rates for donated labor of club members, chargeback rates for donated grooming equipment, and rates for common equipment used for non-grooming maintenance. Rates for other pieces of equipment are found in the Wisconsin DOT Classified Equipment rates.

Reporting Tips

Council and Wisconsin DOT rates apply to actual use of equipment and labor during the activity. Examples include the following:

Signing

- Claimed hours of vehicle/equipment use must be less than labor hours. Equipment time spent parked or idling is not eligible to be claimed since club members need time to install or remove the signs.

Machine Brushing –Two types:

1. Where a piece of equipment (brush hog, etc.) is being pulled behind a tractor. Machine hours for each piece of equipment may equal the labor hours.
2. Where a saw of some sort is being used. These machine hours may not equal the labor hours as some time is needed to stack, load, or drag the brush off the trail. Also, ATV hours and chain saw hours cannot be combined in the same way that tractor/brush hog hours are combined. For example:

It is not possible to operate a chain saw and ATV at the same time. The charge for equipment used intermittently in the course of the work activity should reflect the sum of the intermittent periods.

Grooming

- Groomer rates are based on the power unit and grooming drag size and weight. Those specifications must be included with a supplemental snowmobile claim.
- Groomer rates include maintenance, fuel, and operator costs. Always use the Snowmobile Recreation Council rates first. If the Council has not set a rate, then look to the Wisconsin DOT rates.

General

- The Wisconsin DOT rate in effect for any given snowmobile season is the rate that was in effect on July 1.
- When in doubt about the rate to claim, contact your DNR CSS.
-

Eligible Costs

- Vehicle and labor hours for the time commuting to and from home are eligible only when transporting equipment and/or supplies that will be used in the maintenance activity to be undertaken that day.
- The cost of transporting the groomer from its storage location to the trails to be groomed.
- Railroad permit fee.
- Portable restroom at a trail site.

Ineligible Costs

- The costs involved in extracting a stuck grooming unit. Grooming equipment hourly rates are established to cover the costs of owning and operating the grooming equipment. Just like the cost of fuel, insurance or replacement parts, extracting stuck equipment is a cost of operating the equipment.
- Groomer idling time while the operators are having lunch.
- Maintenance of non-funded trails.
- Brushing or mowing for summer trail use.

NOTE: When in doubt about eligibility, call your DNR [RPM](#).

ATV & Snowmobile Grant Dual Recipients

For those counties that also receive grants from the Department’s All-Terrain Vehicle (ATV) program, the eligible costs incurred under ATV maintenance agreements cannot be included as claims against snowmobile maintenance funds.

Example: County A.....

| Description | Costs |
|--|-------------|
| Incurrs \$500 per mile for maintenance of winter snowmobile trails that also accommodate winter ATV trails | \$500/mile |
| Bills out \$100 per mile from winter ATV grant | -\$100/mile |
| Balance due to the snowmobile program | \$400/mile |
| Amount charged to basic snowmobile program | -\$300/mile |
| Balance eligible for supplemental maintenance payment, assuming other necessary thresholds have been met | \$100/mile |

Review Process

A written request for supplemental maintenance payments is due in the appropriate DNR regional office by August 1 of each year. To meet this submission deadline, counties typically impose an earlier deadline on the clubs/alliances. The request consists of completed Department forms along with necessary supporting documentation. [See "Required Forms" section below.] This documentation covers work done or expenses incurred for the entire period of the snowmobile maintenance grant agreement of the previous year. DNR staff review this information to determine:

- (1) if program spending thresholds have been met,
- (2) if costs reported are eligible and
- (3) if appropriate caps need to be applied.

In years when the total request for supplemental snowmobile funds exceeds available funds, review of submitted costs determines the final statewide prorate for each county's payment.

Payments - s. 350.12(4)(bn), Wis. Stats.

Advance—September 15

Counties are eligible to request 50% advance payments of their supplemental claim. Based on a preliminary review of all requests received to determine if adequate funds are available, the Department will send checks equal to 50% of the requested amount (capped at the eligible amount) by September 15. These payments are made to the county so the county can make payments to the cooperating clubs, alliances, or associations.

Final—December 1

The final payment process is initiated by a letter from the Department to the county indicating the full approved amount for payment. This letter will be mailed on or before December 1 each year. This letter is the authorization that the county needs to issue a final payment to the clubs, associations, or alliances. The county claims reimbursement of the final payment from the regional Community Services Specialist (CSS) by submitting the proper documentation (canceled checks or bank statements with checks highlighted from all of the recipients).

In those years when available funding is less than adequate to reimburse 100% of claimed eligible costs, the final payment process may be extended while the Department requests additional supplemental snowmobile funds from other snowmobile accounts using the process identified in s. 13.10, Wis. Stats., that requires approval of the Legislature's Joint Committee on Finance.

Required Forms

The following forms must be completed:

County completes:

- 8700 - 003 Supplemental Payment Request (used for original supplemental request and final county supplemental reimbursement)
- 8700 - 004 Supplemental Maintenance Worksheet

Club/Alliance completes all grooming and non-grooming maintenance entries and submittals in the Snowmobile Automated Reporting System (SNARS).

- The **Supplemental Maintenance Worksheet (Form 8700-004)** is a convenient summary of payments made to clubs, association, vendors or force account activity under the existing maintenance grant as well as an outline of major costs incurred for supplementary maintenance.

All of these forms, available in several formats, may be found on the Department's webpage at the following address: <http://dnr.wi.gov/Aid/SnowmobileTrails.html> and in an appendix to this guide.

The forms may be printed and completed by hand or completed on your computer and then printed.

Required Documentation

In addition to the required forms listed above, the following documentation must accompany a supplemental snowmobile request:

1. Vendor invoices, which support the eligibility of the costs claimed. This extends to the original vendor invoices when snowmobile clubs or associations purchase materials and are then reimbursed by the county. Note: If an individual purchases materials on behalf of a snowmobile club, the sales tax is an eligible expense.
2. Machine usage records that substantiate the use of each equipment item for which costs are claimed. These records should be kept on a daily basis and show the hours, dates, and project function for which the equipment was used.
3. Meter time must be reported on grooming forms.
4. Administrative time requires supporting documentation. Restrictions apply. See the Administrative Expense Eligibility section in the [Snowmobile Program Guide CA-002](#).
5. Labor records documenting the hours worked, dates, and hourly rates of individuals, including both local government staff (also called "force account") or club members, working on trail maintenance activities.
6. Invoice for county liability insurance. If such insurance is provided through a rider to the county's general policy, documentation should also be included to demonstrate how the cost was equitably allocated to the snowmobile program.
7. Summary of landowners paid for leases, land use agreements, or short-term easement and payments made to each, as applicable.

For additional information, contact your DNR [RPM](#) or the DNR Snowmobile grant manager, [Jillian Steffes](#), at (715) 210-4911.

Appendix – Sample Supplemental Forms

State of Wisconsin

 PO Box 7921, Madison WI 53707-7921

County Snowmobile Trail Aids Program
Supplemental Payment Request
 Form 8700-003 (9/06) Page 1 of 2

The County submits this form to request supplemental maintenance.

e. Project Sponsors are required to provide information requested on this form when of a grant funded by the Department. The Department will not process your payment e used to determine the amount of your payment and issue your check or establish the

amount of your supplemental payment. Personally identifiable information collected will be used for program administration and may be made available to requesters as required under Wisconsin's Open Records law [ss. 19.31-19.39, Wis. Stats.].

Instructions: See reverse for instructions on completing this request. Submit one copy of this request form, your completed Supplemental Maintenance Worksheet (Form 8700-004), and other required documentation listed on reverse, to your DNR Grant Specialist by August 1. See the DNR web site for additional information: dnr.wi.gov/org/caer/cfa.

Project Sponsor Information

| | |
|-----------------|---------------------------|
| Project Sponsor | Grant Number |
| Project Name | County Choose a County |

The DNR will mail the check to the name identified on the application as "Check Recipient." Questions? Contact DNR Grant Specialist.

Type of Request: (Select all that apply) Maintenance Agreement Final (Sections A & B) Supplemental Final (Section D)

Maintenance Agreement Payment Information (see reverse for instructions)

| A. Payment Record to Date | Amount | This Column for DNR Use Only |
|--|---------|------------------------------|
| 1. Amount of Grant (from original or amended Grant Agreement) | \$ | |
| 2. Advance Payment Received, if any | | |
| 3. Funds Remaining (Line 1 minus Line 2) | 0.00 | |
| B. Payment Request | | |
| 4. Amount Eligible this Claim. Transfer data from "Total Amount Paid" field on Supplemental Maintenance Worksheet (Form 8700-004). | | |
| 5. Amount of Final Claim (Line 4 minus Line 2) Note: This line cannot exceed the amount in Line 3 | 0.00 | |
| C. Supplemental Request | | |
