Application: For each distinct project, submit a notice of intent to apply (ITA) with priority evaluation and ranking formula (PERF) information *and supporting documentation* via the [online system](#) by the ITA deadline. The project priority list (PPL) identifies all projects with a valid ITA submittal, in priority score order, that are eligible to submit a financial assistance application. An application *with all required documentation* must be submitted via the online system by the application deadline to be ranked on the funding list, in priority score order, for the purpose of allocating loan funds and principal forgiveness (PF). Applications received after the application deadline are eligible for loan funding, if available, and are **not** eligible for general PF. The DNR recommends that all applicants—even those not competing for PF—submit a financial assistance application by the application deadline due to potential limitations on [loan capacity](#).

Loan Closing: The assigned DNR loan project manager works with the municipality to establish a loan closing date as well as a timeline for submitting the [required documentation](#), including the [first request for disbursement](#), needed prior to preparing the financial assistance agreement (FAA, AKA loan). Typically, the [loan closing process](#) takes **at least two months** from FAA preparation to the closing date. The loan closing date is normally scheduled for the second or fourth Wednesday of the month. For both PF and non-PF CWFP projects, the loan must close within eight months following the date of the application acceptance notification: PF CWFP applications are accepted by June 30 (the end of the state fiscal year); and non-PF CWFP applications are accepted by the Dec. 31 of the following state fiscal year.
