Ms. Salmon,

Please accept the following comment from the Milwaukee Metropolitan Sewerage District on potential economic impact of the proposed NR 439:

At this time, we cannot ascertain whether we will be affected in a material economic way by the implementation of the rule without spending significant resources to make the determination. If our current instrumentation is not able to meet the revised accuracy requirements, we will have to replace a significant number of instruments. If our existing instruments are grandfathered out of the revised accuracy requirements until they need to be replaced, then there will not be a material economic impact to us.

Thank you,

**Emily Van Deraa**
