DNR Education Programs & Resources

Wisconsin Department of Natural Resources offers many exciting programs and resources for teacher training and classroom instruction.

Air Defenders: The Quest for Clean Air

Use this multi-media, multidisciplinary kit to teach children to help clean the air and protect community health. As Air Defenders, they'll learn about open burning and respiratory health through science, health, and music-based lessons.

Visit us at: <http://www.airdefenders.org>
or contact: DNRAirEducation@wisconsin.gov

Air Education & Outreach

The DNR Air Management program has many online publications and web resources for teachers and kids about air quality and air pollution; information on what citizens can do to improve air quality and protect their health; and details on how to stay informed and involved in Wisconsin's air quality management program through email lists, public hearings and advisory committees.

Visit us at: <http://dnr.wi.gov>
Search: **air education**
or contact: DNRAirEducation@wisconsin.gov

Angler Education

Help people learn how to fish. Materials cover skills, Wisconsin's fishing heritage and stewardship to ensure a sustainable fishery. A one-day volunteer instructor workshop provides training, classroom and field materials, and access to fishing gear. Materials are a natural fit in the classroom and reinforce Common Core Standards across the disciplines, particularly for STEM; they are also posted online. Contact our office to schedule an in-service or volunteer training workshop in your community.

Visit us at: <http://dnr.wi.gov>
Search: **angler education**
or contact: theresa.stabo@wisconsin.gov

Clean Boats, Clean Waters Story Hour

This training video leads librarians, early childhood educators, and elementary teachers through a lesson on how to present a fun activity-based story time focusing on how everyone, even kids, can help keep Wisconsin waters free of aquatic invasive species. The video features a former kindergarten teacher demonstrating how to do the story hour. Copies of all the materials and resources you'll need to lead a story hour in your area can be found online.

Visit us at: <http://dnr.wi.gov>
Search: **story hour**
or contact: christal.campbell@wisconsin.gov
or **608-266-0061**

A Closer Look at Whooping Cranes Education Trunk

Whooping crane and wetland-based activities specifically designed to meet Wisconsin Academic Standards, the education trunk provides information about whooping crane ecology and biology, details the story of decline and reintroduction, and offers over 14 hands-on grades 4-8 student activities for classroom teachers, naturalists, and environmental educators.

Visit us at: <http://dnr.wi.gov>
Search: **whooping crane trunk**

Forest Forever ParkPacks

These mobile resource kits teach middle-school kids about sustainable forestry while sharpening their investigative skills and encouraging critical thinking processes. ParkPack lesson plans and activities are correlated with Wisconsin Academic Standards. Each teacher pack contains enough equipment for 30 students.

Visit us at: <http://dnr.wi.gov/eeek/teacher/parkpack.htm>
or contact: sherry.wise@wisconsin.gov

Great Lakes ParkPacks

These mobile resource kits are located at state parks and forests along Lake Michigan and Lake Superior. The four packs address themes of: Glacial Gifts; Mysteries; Survival; and Challenges. They include activities, books and other materials.

Visit us at: <http://dnr.wi.gov/eeek/teacher/parkpack.htm>
or contact: sherry.wise@wisconsin.gov

Green & Healthy Wisconsin Schools Program

Join schools across Wisconsin in demonstrating a commitment to a sustainable Earth, stronger communities and healthier learning environments! By participating in the program, students learn about the environmental, health and safety challenges facing our schools and are given skills to address these challenges throughout their lives. The GHS Recycling Bin Grant Program gives eligible schools free recycling bins to be used in classrooms, lunchrooms, staff lounges, and hallways. For information on the Green & Healthy Wisconsin Schools program, visit us at: <http://ghswisconsin.org>

or contact: DNRGHSWisconsin@wisconsin.gov
or **608-267-7622**

Invasive Species—in our waters, forests, and backyards

Whether you are studying aquatic invaders of the Great Lakes or terrestrial invaders of our urban forests, the DNR has lots of educational resources about invasive species for you to use. Learn about invasive organisms and teach students how to prevent their spread in Wisconsin. Find factsheets, pictures, videos, curricula and our complete invasive species catalog on the DNR's invasive species WebPages.

Visit us at: <http://dnr.wi.gov>
Search: **invasive species education**

LEAF (Learning Experiences & Activities in Forestry) and PLT (Project Learning Tree)

These WCEE (UW-Stevens Point) K-12 environmental education programs connect formal and non-formal Wisconsin educators with forestry education materials through teacher training and the K-12 Forestry education lesson guides.

For LEAF information, visit:
<http://www.uwsp.edu/cnr/leaf>
or contact: leaf@uwsp.edu

For PLT information, visit:
<http://www.uwsp.edu/cnr-ap/wcee/Pages/project-learning-tree.aspx>
or contact: wcee-plt@uwsp.edu

Milkweed Monitoring

Check out DNR's Milkweed Monitoring pages on EEK! Students can learn to find air pollution by studying Common Milkweed leaves.

Visit us at:
<http://dnr.wi.gov/eeek/teacher/milkweed.htm>
or contact: DNRAirEducation@wisconsin.gov

Project WET

Protection of Wisconsin's water resources is crucial for healthy people, healthy economies, and a healthy environment. Project WET uses over 90 hands-on, fun activities to facilitate and promote awareness, appreciation, knowledge and stewardship of water resources through the dissemination of classroom-ready teaching aids. Materials are available through Project WET workshops lead by certified instructors.

Visit us at: <http://dnr.wi.gov>
Search: **project WET**
or contact: dnrwildwet@wisconsin.gov
or **608-261-8453**

Project WILD

This national program assists PreK-12 educators in teaching about wildlife and their habitat. The materials are available through Project WILD workshops lead by certified instructors. More than 165 hands-on activities provide interactive learning for youth groups, home schools, camps and nature centers.

Visit us at: <http://dnr.wi.gov>
Search: **project WILD**
or contact: dnrwildwet@wisconsin.gov
or **608-261-8453**

Purple Loosestrife Biocontrol Program

Get involved in loosestrife control efforts! "See Cella Chow!" is a program to rear and release biological control insects and is a great way to effectively teach about plants, insects, and invasive species. The classroom teaching activities center on the biological control process. Topics range from a host-plant specificity experiment to an invasive plant art project.

Visit us at: <http://dnr.wi.gov>
Search: **cella chow**
or contact: brock.woods@wisconsin.gov

Recreational Safety Programs

The Bureau of Law Enforcement currently has four programs that can be taught in schools: Boating Safety, Snowmobile Safety, ATV Safety and Hunter Safety. Instructors must be DNR certified. Materials and lesson plans provided.

Contact: **608-266-2142**

or julie.fitzgerald@wisconsin.gov

Recycling Education & Outreach

The DNR and its recycling program partners have many resources for teachers and other educators that will help you teach and implement waste reduction and recycling in your school and community. Resources include activity guides, posters, publications, recycling signs and videos.

Visit us at: <http://dnr.wi.gov>

Search: **recycling education**

or contact: elisabeth.olson@wisconsin.gov or **608-264-9258**

School Forest Program

School forests are exceptional outdoor environmental education sites. Nearly 200 school districts have a school forest. DNR foresters provide resource management assistance and the state school forest education specialist helps schools use these sites for education.

Visit us at: <http://www.uwsp.edu/cnr/leaf/schoolforest/>

Snakes of Wisconsin, Amphibians of Wisconsin, and Turtles & Lizards of Wisconsin

This series of three full-color guides cover all the amphibians and reptiles of the state. They include range maps, species status and species information. Cost: Donations of \$3 for Snakes, \$4 for Amphibians, \$4 for Turtles & Lizards, and \$10 for a set of all three. To order, fill out the form online: <http://dnr.wi.gov>

Search: **herp order**

For more information, contact:

Bureau.EndangeredResources@wisconsin.gov

or **608-266-7012**

State Park and Forest Interpretive Programs

Educators or other property staff provide on or off-site educational programs for K-12 students. Programs may include guided hikes, hands-on activities,

and property tours. Some properties provide field trip guides to assist educators in planning their own educational activities on the property.

Visit us at: <http://dnr.wi.gov>

Search: **get outdoors**

or contact: sherry.wise@wisconsin.gov

Tackle Looper Program

No fishing rod? No Problem! We have fishing equipment you can borrow at several DNR offices and state parks and facilities, often in classroom quantities. There is no charge to borrow the equipment, but we do ask that you make basic gear maintenance part of your teaching experience and return the gear in good working order. Some loaner sites also have **Fish Packs**—kits stocked with games, stories and activities that help youngsters learn about Wisconsin fish. Check one out or download the link from our website for ideas to create your own.

Visit us at: <http://dnr.wi.gov/topic/fishing/documents/anglereducation/FishPacks.pdf>

Teachers' Guide to Wisconsin State Parks and Forests

Teachers and students can see, touch, hear and discover the richness of Wisconsin's natural and cultural heritage at many state parks and forests. This online guide lists over 100 field trips that are correlated to Wisconsin's Model Academic Standards. Teachers will also find the information they need to select a topic, register for a field trip, and reserve additional teaching resources.

Visit us at: <http://dnr.wi.gov>

Search: **state park teachers' guide**

or contact: sherry.wise@wisconsin.gov

Water Action Volunteers (WAV)

This action program focuses on stream and river education oriented to outdoor experiences. The materials are self directed and include storm drain stenciling, river clean-up programs, and volunteer stream/river monitoring

Visit us at: <http://clean-water.uwex.edu/wav/>

or contact: kris.stepenuck@wisconsin.gov

Wee Recyclers Early Childhood Education Program

Help teach your children to become Wee Recyclers! Materials are designed for use with 3 to 5-year-olds in early child care settings; however, most activities can be modified for use with other age groups. The activities in the guide are simple, entertaining,

hands-on and require minimal teacher preparation time. The Wee Recyclers Online Resources compliment the guide with an array of supplemental materials, including posters, recycling labels, handouts, puppet patterns, and the Wee Crafts guide.

Visit us at: [www.dnr.wi.gov/eeek/](http://www.dnr.wi.gov/eeek/teacher/weerecyclers.htm)

[teacher/weerecyclers.htm](http://www.dnr.wi.gov/eeek/teacher/weerecyclers.htm)

Where's the Air? Kit

Download your **FREE** copy of DNR's Where's the Air? teacher's activity guide. Students learn how air pollution forms and how human behavior affects the quality of the air. And don't forget to order your **FREE** Where's the Air? poster (also available in Spanish) on the front of this form.

Visit us at: [http://dnr.wi.gov/eeek/](http://dnr.wi.gov/eeek/teacher/wtair.htm)

[teacher/wtair.htm](http://dnr.wi.gov/eeek/teacher/wtair.htm)

or contact: DNRAirEducation@wisconsin.gov

Wild and Forever Free Video

Listen and watch as DNR wildlife biologists and partners tell the unique story of Wisconsin's wild animals and wild places and how they protect and manage these rich, natural heirlooms. Appropriate for grades 6-12.

For more information, contact:

marykay.salwey@wisconsin.gov

Wisconsin Groundwater Study Guide

The updated Groundwater Study Guide booklet contains thirteen groundwater exercises for students in grades 6-9, plus introductory information, student worksheets, a glossary, other groundwater activity ideas, and a groundwater education resource list. Activities are correlated to DPI Wisconsin Model Academic Standards.

Visit us at: [http://dnr.wi.gov/eeek/teacher/](http://dnr.wi.gov/eeek/teacher/groundwaterguide.htm)

[groundwaterguide.htm](http://dnr.wi.gov/eeek/teacher/groundwaterguide.htm)

EEK!—Environmental Education for Kids

EEK! is a website for kids in grades 4-8 in English with companion Spanish pages. EEK! provides information on natural resources and the environment along with career information; and it offers students the opportunity to take part in activities, make seasonal observations, and share stories and artwork. Use EEK! as a teaching tool to help enhance curriculum and encourage your students to use EEK! to find valuable information for reports, research, and career interests.

Visit us at: <http://dnr.wi.gov/eeek>

or contact: carrie.morgan@wisconsin.gov

Wisconsin Department of Natural Resources Education and Training Web Resources

DNR education programs help people of all ages understand, appreciate and care for Wisconsin's natural resources. Visit the DNR education webpage to find classes to enhance outdoor knowledge and skills, places to go on field trips, and resources to complement classroom activities and curriculum. Learn how to use, protect, teach about, and conserve natural resources for today and tomorrow.

Visit us at: <http://dnr.wi.gov>

Search: **education**

Join the Wisconsin Department of Natural Resources—Education News listserv!

Stay informed of upcoming DNR and DNR-related educational opportunities and resources such as grants, professional development, and curricular resources. **Education News** will be emailed four to six times a year.
