Subject: Metallic Mineral Exploration License – Green Light Wisconsin, LLC.

Dear Mr. Colton,

In accordance with s. NR 130.107, Wis. Adm. Code, the WDNR has re-issued license #16964 to Green Light Wisconsin, LLC (Green Light) for the purpose of conducting metallic mineral exploration in the state of Wisconsin. Your application, received on June 28, 2022, was deemed complete. The WDNR has verified Green Light is registered to do business in the State of Wisconsin.

Green Light has provided statement of good standing for the continuous exploration bond in the amount of \$5,000 #SU1181496 issued by Arch Insurance Company located in Jersey City, NJ who is registered to do business in the state of Wisconsin. This bond satisfies the minimum amount required under your license and the cost to abandon two open boreholes labeled as R11-11 and R11-12 located at the Reef deposit in Marathon County.

A copy of your license is attached. Please note that this license expires June 30, 2023. You may renew this license in accordance with s. NR 130.106, Wis. Adm. Code, by sending \$300.00 and appropriate documentation to WDNR. The renewal is good for one year.

Please note, that in accordance with s. NR 130.109, Wis. Adm. Code, you are required to notify WDNR with intent to drill at least 30 days prior to commencing drill operations. Be advised that no exploration activity may proceed without prior authorization from the mining program, and additional WDNR permits may be required.

The WDNR has recently hired Molly Gardner as the new Metallic Mining Coordinator. Please reach out to her for future applications, notice of intent, and any questions related to nonferrous metallic mining. Molly can be reached at molly.gardner@wisconsin.gov. It has been a pleasure working with you!

Sincerely,

Roberta Walls
Non-Metallic Mining Coordinator
Wisconsin Department of Natural Resources
