Dear Mr. Donohue,

The Chequamegon-Nicolet National Forest received your letter of proposed changes to the Soo Line 40 operating plan, dated February 25, 2025, for diamond drilling operations in T33N R2W S35 NWSW in Taylor County Wisconsin. This letter is to inform you that:

The Forest Service does not consider these changes to be major changes from the operating plan approved by Notice to Proceed on September 22, 2022.

Similar to the Notice to Proceed sent on September 22, 2022:

1. The operating plan is consistent with the forest land and resource management plan.
2. The Forest Service intends to monitor operations to ensure compliance with the operating plan.
3. Green Light Wisconsin must notify the Forest Service 60 days in advance of any major modifications in the operating plan.
4. Any unapproved deviation from the operating plan may be construed as unlawful, and the United States may take appropriate legal action.
5. Green Light Wisconsin will need to meet all requirements of the Wisconsin Department of Natural Resources before starting work.

If you have any questions or comments, please contact Megan Luick, Minerals Program Manager, at [megan.luick@usda.gov](mailto:megan.luick@usda.gov). We look forward to working with you in the future.

Sincerely,

SITKA PENCE  
Deputy Forest Supervisor
