TRACT #5950-2-24 IS AN OPTIONAL PULPWOOD VOLUME SALE

The Division of Forestry is offering a new method for advertising timber for sale. In this timber sale, there is both required and optional volume to be utilized, indicated by minimum diameter.

This sale contains Ash, Aspen, Mixed Hardwoods, and Oak pulpwood volume (4-8" diameter) that is **optional to bid on**. Contractors may bid on all, none, or a portion of the **optional** pulpwood volume listed on sale prospectus and bid form. Contractors choose the volume available to bid on to meet their ability to move the pulpwood.

This sale will be awarded to the highest bidder (value) for the sale regardless of the total volume bid on. The State reserves the right to reject any and all bids.

- 1) Contractor **MUST** bid on all **required** volume, and must cut and remove that specified size (e.g. 8" and larger) required volume.
- 2) Contractor has the **option** to bid on 0-100% of the **optional** 4" and larger volume. You will be required to fill in the volume and value in the bid form provided.
- 3) If the winning bidder bids on a portion or all of the **optional** volume, upon harvesting the sale:
 - a. Will be required to utilize the **optional** bid volume. In the event the contractor is unable to market that volume, the contractor will be invoiced for the **optional** volume bid on and required to pay. Contractor would then be allowed to leave the unused volume in the sale per slash requirements.
 - b. Chooses to utilize additional **optional** volume above the bid volume amount, will be billed at the bid price for **optional** volume.
- 4) If the winning bidder, **doesn't bid** on the optional volume, **and** upon harvesting the sale:
 - a. Wants to utilize any of the optional volume, a contract rate and volume will be agreed upon between the buyer and seller and included in a contract amendment.
- 5) When **required** and **optional** volume are hauled together (mixed product loads), the volume will be invoiced at the prorated purchased value and volume for both (see example below). If the purchaser sorts the required and optional volume by size, the loads will be invoiced based on the bid prices for each.

Example: 400 tons of required aspen purchased at \$20.00/ton AND 200 tons of optional aspen purchased at \$10.00/ton. Mixed loads will be invoiced at \$16.67/ton.
