Sale contains approximately 29 tons/acre or 12 cords/acre.

Special Conditions

- SEASONAL RESTRICTIONS:** Harvesting operations permitted from August 15 – April 15.
Zone A (36 acres) – Harvesting operations permitted from August 15 to March 19. Once begun, all of Zone A must be harvested prior to its calendar end date.
- Utilize only the sawlog portion of the cut white pine trees. Leave the pulpwood tops uncut on the ground.
- All landings and any new roads must be approved prior to sale start up. All roads must be cleared of debris and leveled upon sale completion.
- Do not operate machinery within 15 feet of any ephemeral pond or wetland and do not deposit any slash or tops in them.
- Cutting must be concurrent for all species.
- Do not cut, knock down or utilize any dead trees unless they pose an operational safety risk.
- If the contract is to be worked on during multiple time periods a mid-contract “pull-off” inspection meeting will be required. One-week notice shall be given by the contractor prior to moving equipment off-site. During the “pull-off” inspection, provisions needing attention will be documented. The contractor at that time can decide to remedy them before pulling equipment off or rectify them when moving back onto the site. If the latter is chosen, documented items shall be addressed before harvesting can continue.
