2. No tops or slash allowed across any blue line, red line, town road right-of-way or within any wetland. Slash within 50 feet of the highways/town roads must be lopped and scattered within 2 feet of the ground and pulled back into the sale area at least 10 feet from the edges of those areas.

4. If the contract is to be worked on during multiple time periods a mid-contract "pull-off" inspection meeting will be required. One-week notice shall be given by the contractor prior to moving equipment off-site. During the "pull-off" inspection, provisions needing attention will be documented. The contractor at that time can decide to remedy them before pulling equipment off or rectify them when moving back onto the site. If the latter is chosen, documented items shall be addressed before harvesting can continue.
