- Swamp Hardwoods
- Hemlock Hardwoods
- Lakes

Stand 2 (70 Acres) - This is a northern hardwood stand that will be managed using conversion from even-aged to uneven-aged. Approximately 37 acres from stand 3 are being added to this stand.

Stand 6 (5 Acres) - This is a black spruce stand that will be harvested and regenerated along the outer edges.

Stand 8 (19 Acres) - This swamp hardwood stand will be thinned where operable.

Stand 10 (23 Acres) - This is a hemlock-hardwood stand that will be thinned promote growth and vigor.

***Area 1 - Winegar Moraines Forest Production objectives are better suited here.**
